

UNITE AGAINST TOMMY ROBINSON

FASCISTS NOT WELCOME

SATURDAY 27 JULY, 12PM

ASSEMBLE RUSSELL SQUARE, LONDON WC1B 5EH

MARCH TO TRAFALGAR SQUARE

ON SATURDAY 27 July, fascist “Tommy Robinson” is calling on his far right, racist and Nazi thug supporters to “take over Trafalgar Square”.

Robinson was a member of the Nazi British National Party and founded the English Defence League.

On 1 June, he put over 5,000 on the streets. The mobilisation was extremely Islamophobic and racist. Lawrence Fox echoed the Nazi National Front slogan “I want my country back”. Robinson’s supporters chanted “who the f*** is Allah” and other hateful slogans.

Possible

Fascists and the far right in Britain have been fuelled by the virulent anti refugee and Islamophobic racism pushed by Sunak’s government.

Robinson is looking to put even bigger numbers on the streets on 27 July. We must build the biggest protest to unite against him as possible.

This means unions, faith groups, campaigns and organisations, politicians and cultural figures—all opposed fascism—coming together on the day.

The threat posed is heightened by a toxic climate of racism and the electoral breakthrough of Nigel Farage

and Reform UK. Fascist Robinson endorsed Farage and hard right Tory Suella Braverman, who herself

said that Farage should be Tory leader. Robinson then called on his supporters to vote Reform UK.

The general election was immediately preceded by Sunak’s horrific racist shock detention raids after passing the Rwanda plan.

Talk of “extremists” tearing Britain apart, “Islamist” threat and “mob rule” is a racist attempt to slur Muslims and all actively asserting their right to protest against war and for a ceasefire.

Unite

Tory MPs like Braverman, Truss and Sunak emboldened Islamophobes like fascist Tommy Robinson. We have a qualitative shift further in that direction with Reform UK’s entrance to parliament. Antisemitic hate crimes are also increasing.

The Tories stoked far right fears, Islamophobia, racism and division. The racist ‘stop the boats’ rhetoric was then echoed by our new prime minister, Labour’s Keir Starmer, who refused to support the policy for safe, legal routes to claim asylum.

We must unite against racism, Islamophobia and antisemitism. We must vehemently defend the right to protest and want those hundreds of thousands who are demonstrating over Palestine to also be on the streets on 27 July to unite against the fascist threat.

Internationally fascists and the far right made frightening gains in the European elections, taking 30 percent in France, Italy and Austria. While united resistance on the streets helped to stop fascist Marine Le Pen and the RN win, her fascist party made serious and worrying gains. Trump returning to the White House in November is a real prospect.

Fascism

Whatever guise he pushes for his relaunch, Robinson is pursuing the agenda he has for years—spreading racism, islamophobia and division and building the forces of fascism in Britain. It is imperative that we stand united against Robinson’s hatred and attempts to divide us. Join the march to show united opposition in London on Saturday 27 July.
