STOP THE FAR RIGHT

Fascist Tommy Robinson has announced a demonstration on Sat 1 Feb calling on his racist supporters to take to the streets of London. We are calling a national demo to stop the far right in response and need a huge turnout to show the fascists they are not welcome on our streets.

Trump back in the White House boosts the far right everywhere. His inauguration saw Elon Musk doing a Nazi salute. Musk is fast becoming the most influential far right figure globally and is leading the defence of Tommy Robinson. They both are pushing Islamophobic lies and panic about so-called "Asian grooming gangs".

Farage boasts that Reform UK now has over 180,000 members and has overtaken the Tories. Reform UK is setting the agenda in British politics on immigration and is pushing hard racism that is giving confidence to fascists.

The danger of the far right is only growing. But they can be stopped. In August, mass anti-racist resistance halted the far right riots. In October, 20,000 of us came out to march against Robinson's fascist friends. But on Sat 1 Feb we have to do it again. Join us.
