

Anti-racists say...

# REFORM UK IS A RACIST PARTY

**Nigel Farage's  
Reform UK party is  
a danger to us all.  
Don't vote for it.**

It whips up racism against refugees, migrants and Muslims. But it also threatens everyone except the very rich elite. Farage, a millionaire private school boy, wants to rip up the NHS and opposes new rights for workers.

Reform UK is a fraud. It says it is anti-establishment but helps out the enemies of working people.

It wants you to blame migrants and refugees for the problems in Britain while it protects the super-rich who are grabbing more and more.

Don't be fooled.

Racism means violence, hatred and division. It wrecks lives and encourages attacks on black people, Asians and Muslims. It also distracts attention from the people at the top who fill their pockets while we fight one another.

## Riddled with racists

Farage went to school at the posh private Dulwich College. One member of staff described Farage and other students “shouting Hitler youth songs”.

A Jewish pupil remembered Farage saying, “Hitler was right!” and “Gas ‘em!”. Farage openly “supported the [fascist] British Movement”, and chanted: “BM, BM, we are British Nazi men!”, as well as giving Nazi salutes.

In 2014 he said that “parts of Britain are now unrecognisable and look like a foreign land” because of migration.

Farage also said in 2014, “Any normal person would have a perfect right to be concerned if a group of Romanian people suddenly moved in next door.”

During the 2024 general election, Farage suggested Muslims in Britain “do not subscribe to British values”.

Reform UK winning five MPs at the general election came just before the far right riots and the fierce attacks on mosques and hotels where refugees were housed.

Reform UK is riddled with racism, sexism, homophobia and bigotry.

## Farage wants to wreck the NHS

In an interview on LBC radio this year he said he was “open to anything” when it comes to replacing the present health service with “an insurance-based model”.

Migrants helped to build our NHS. Reform UK’s policies are set to destroy it.

Its general election manifesto laid out £50 billion of cuts to the NHS, the education system and social care.

## Friends of the bosses

All of Reform UK’s MPs voted against improving workers’ rights.

Soon after they were elected, they had to decide whether to support a bill that improved rights to sick pay and leave for new parents. It also made it harder for bosses to sack workers and re-employ them on lower pay and worse conditions. Led by Farage, they all voted against it.

## Super-rich Farage

Farage was paid £189,000 in 2024 as a “brand ambassador” for a gold company. He said this was for four hours of employment a month with Direct Bullion for half a year.

It was his “third job” alongside his roles as an MP and a presenter on the rightwing channel GB News. As well as his £91,346 salary to sit in parliament he took £219,506 from GB News for his work as a presenter.

And he was paid £40,000 for a speaking engagement at an outfit called Nomad Capitalist in October 2024 in Arizona in the United States.
